

Semio Report Template

Unified printable report format

Semio print framework with
frosted glass panels

Introduction

1

The semio print stack renders branded documents with window chrome, panels, and registers

Architecture

1.1

Print Pipeline

Templates compile through Tectonic with semio LaTeX packages and token-driven styling

Chrome Themes

1.1.1

Light and dark themes resolve foreground, border, and fill aliases at document start

Token Pipeline

1.1.1.1

Run `bun ./script.ts generate` to refresh `semio-tokens.sty`

Results

2

Zitat

Zitat: 2.a

Key findings are presented in bordered boxes with sharp corners and semio brand colors

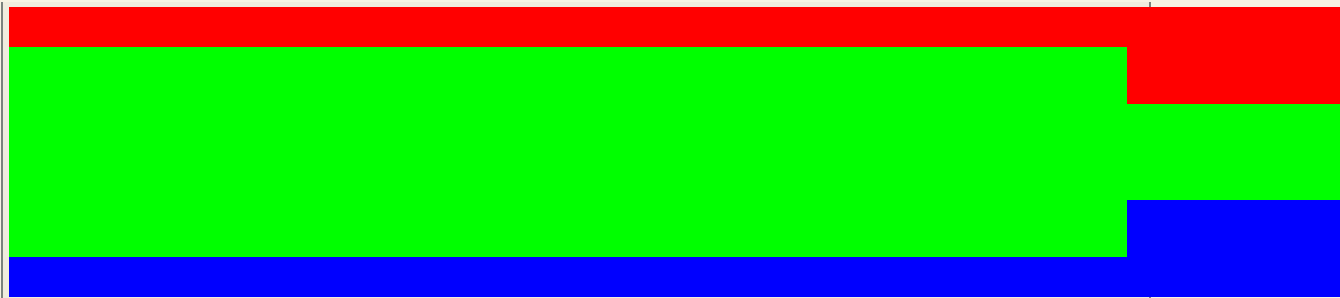

Hierarchy Demo

Abbildung: 2.b

Window numbering uses the parent hierarchy plus a letter index [semio2026, exp132024]

Logo Cover Demo

Cover Anchor NW

Foto: 2.d

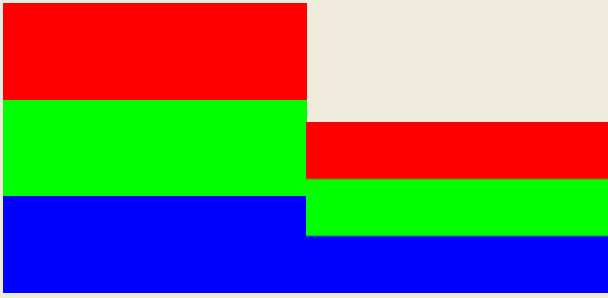

Cover Anchor SE

Foto: 2.e

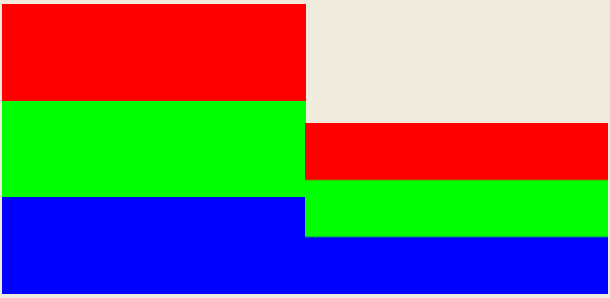

Cover Anchor W [narrow]

Foto: 2.f

Cover Anchor E [narrow]

Foto: 2.g

Logo Contain Demo

Bild: 2.h

DEBUG Contain Itemclip Trigger

Foto: Zit

Zitat: 2.j

In-item cover checkpoint: this image must render exactly once, filling its 0.3-width slot without spilling below the 30mm row

Debug Raw Isolation A: bare usebox, no tikz

2.0.1

Debug Raw Isolation B: tikz pgftext, no clip

2.0.2

Debug Raw Isolation C: tikz pgftext with clip, image content

2.0.3

Debug Raw Isolation D: tikz pgftext with clip, text content

2.0.4

Debug Raw Isolation E: plain tcolorbox, height+valign+halign, tikz clip image

2.0.5

Debug Raw Isolation F: plain tcolorbox, height only, tikz clip image

2.0.6

Conclusion

3

The print technology keeps reports consistent with the semio design language

Messdaten

MD

Rohdaten und ergänzende Messreihen, die im Fließtext referenziert, aber nicht vollständig abgedruckt werden.

Messreihe A

Abbildung: MD.a

Platzhalter für eine ergänzende Messkurve

Messreihe B

Zeitpunkt	Messwert	Bemerkung
00:00	12.4	Kalibrierung
00:15	12.7	--
00:30	13.1	Ausreißer geprüft und bestätigt

Verzeichnisse
